Infection control procedures, including provisions for handling and disposing of contaminated fluids, have also been established through Board policy and administrative regulations for staff and student protection.

All staff shall comply with measures adopted by the district and with all rules set by the Montana State Health Department and the county health department.

COMPLAINTS

Student/Parent Complaints

The district recognizes that complaints regarding staff performance, discipline, grades, student progress, and homework assignments will be made by students and parents from time to time. Students, parents, and others with complaints will be encouraged to discuss the complaint directly with the staff member. All such meetings should be held in confidence and not in the presence of others. If the complaint is not informally resolved, staff should advise the complainant that he/she may submit the matter directly to the building principal or immediate supervisor, as appropriate. The complainant will be provided with necessary formal complaint procedure guidelines in accordance with Board policy 1700 and applicable provisions of current negotiated agreements.

COPYRIGHT

Authorized Reproduction and Use of Copyrighted Material in Print

- Materials on the Internet should be used with caution since they may, and likely are, copyrighted. Proper attribution (author, title, publisher, place and date of publication) should always be given.
- Notice should be taken of any alterations to copyrighted works, and such alterations should only be made for specific instructional objectives.
- Care should be taken in circumventing any technological protection measures. While materials copied pursuant to fair use may be copied after circumventing technological protections against unauthorized copying, technological protection measures to block access to materials may not be circumvented.

In preparing for instruction, a teacher may make or have made a single copy of a chapter from a book; an article from a newspaper or periodical; a short story, short essay, or short poem; or a chart, graph, diagram, drawing, cartoon, or picture from a book, periodical, or newspaper. A teacher may make multiple copies, not exceeding more than one (1) per student, for classroom use if the copying meets the tests of "brevity, spontaneity and cumulative effect" set by the following guidelines. Each copy must include a notice of copyright.

1. Brevity:

- a. A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words.
- b. Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less, may be copied; in any event, the minimum is 500 words. (Each numerical limit may be

expanded to permit the completion of an unfinished line of a poem or prose paragraph.)

c. One chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue may be copied. "Special" works cannot be reproduced in full; this includes children's books combining poetry, prose, or poetic prose.

2. Spontaneity: Should be at the "instance and inspiration" of the individual teacher when there is not a reasonable length of time to request and receive permission to copy.

3. Cumulative Effect: Teachers are limited to using copied material for only one (1) course in the school in which copies are made. No more than one (1) short poem, article, story or two (2) excerpts from the same author may be copied, and no more than three (3) works can be copied from a collective work or periodical issue during one (1) class term. Teachers are limited to nine (9) instances of multiple copying for one (1) course during one (1) class term. Limitations do not apply to current news periodicals, newspapers, and current news sections of other periodicals.

Performances by teachers or students of copyrighted dramatic works without authorization from the copyright owner are permitted as part of a teaching activity in a classroom or instructional setting. All other performances require permission from the copyright owner.

The copyright law prohibits using copies to replace or substitute for anthologies, consumable works, compilations, or collective works. "Consumable" works include: workbooks, exercises, standardized tests, test booklets, and answer sheets. Teachers cannot substitute copies for the purchase of books, publishers' reprints or periodicals, nor can they repeatedly copy the same item from term-to-term. Copying cannot be directed by a "higher authority," and students cannot be charged more than actual cost of photocopying. Teachers may use copyrighted materials in overhead or opaque projectors for instructional purposes.

Authorized Reproduction and Use of Copyrighted Materials in the Library

A library may make a single copy or three digital copies of:

- An unpublished work which is in its collection;
- A published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided the unused replacement cannot be obtained at a fair price.
- A work that is being considered for acquisition, although use is strictly limited to that decision. Technological protection measures may be circumvented for purposes of copying materials in order to make an acquisition decision.

A library may provide a single copy of copyrighted material to a student or staff member at no more than the actual cost of photocopying. The copy must be limited to one (1) article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright, and the student or staff member shall be notified that the copy is to be used only for private study, scholarship, or research. Any other use may subject the person to liability for copyright infringement.

At the request of a teacher, copies may be made for reserve use. The same limits apply as for single or multiple copies designated in “Authorized Reproduction and Use of Copyrighted Material in Print.”

Authorized Reproduction and Use of Copyrighted Music or Dramatic Works

Teachers may:

- Make a single copy of a song, movement, or short section from a printed musical or dramatic work that is unavailable except in a larger work for purposes of preparing for instruction;
- Make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song;
- In an emergency, a teacher may make and use replacement copies of printed music for an imminent musical performance when the purchased copies have been lost, destroyed or are otherwise not available.
- Make and retain a single recording of student performances of copyrighted material when it is made for purposes of evaluation or rehearsal;
- Make and retain a single copy of excerpts from recordings of copyrighted musical works for use as aural exercises or examination questions; and,
- Edit or simplify purchased copies of music or plays provided that the fundamental character of the work is not distorted. Lyrics shall not be altered or added if none exist.

Performance by teachers or students of copyrighted musical or dramatic works is permitted without the authorization of the copyright owner as part of a teaching activity in a classroom or instructional setting.

The purpose shall be instructional rather than for entertainment.

Performances of nondramatic musical works that are copyrighted are permitted without the authorization of the copyright owner, provided that:

- The performance is not for a commercial purpose;
- None of the performers, promoters or organizers are compensated; and,
- Admission fees are used for educational or charitable purposes only.

All other musical and dramatic performances require permission from the copyright owner. Parents or others wishing to record a performance should check with the sponsor to ensure compliance with copyright.

Recording of Copyrighted Programs

Television programs, excluding news programs, transmitted by commercial and non-commercial television stations for reception by the general public without charge may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained by a school for a period not to exceed the first forty-five (45) consecutive calendar days

after date of recording. Upon conclusion of this retention period, all off-air recordings must be erased or destroyed immediately. Certain programming such as that provided on public television may be exempt from this provision; check with the *principal, teacher or teacher librarian* or the subscription database, e.g. united streaming.

USE OF INFORMATION RESOURCES REGULATION

Off-air recording may be used once by individual teachers in the course of instructional activities, and repeated once only when reinforcement is necessary, within a building, during the first 10 consecutive school days, excluding scheduled interruptions, in the calendar day retention period. Off-air recordings may be made only at the request of and used by individual teachers, and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast. A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers. Each additional copy shall be subject to all provisions governing the original recording.

After the first ten consecutive school days, off-air recordings may be used up to the end of the calendar day retention period only for evaluation purposes, i.e., to determine whether or not to include the broadcast program in the teaching curriculum. Permission must be secured from the publisher before the recording can be used for instructional purposes after the 10 day period.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations. All copies of off-air recordings must include the copyright notice on the broadcast program as recorded.

Authorized Reproduction and Use of Copyrighted Computer Software

Schools have a valid need for high-quality software at reasonable prices. To assure a fair return to the authors of software programs, the school district shall support the legal and ethical issues involved in copyright laws and any usage agreements that are incorporated into the acquisition of software programs. To this end, the following guidelines shall be in effect:

- All copyright laws and publisher license agreements between the vendor and the school district shall be observed;
- Staff members shall take reasonable precautions to prevent copying or the use of 18 unauthorized copies on school equipment;
- A back-up copy shall be purchased, for use as a replacement when a program is lost or damaged. If the vendor is not able to supply a replacement, the school district shall make a back-up copy that will be used for replacement purposes only;
- A copy of the software license agreement shall be retained by the, *board secretary, technology director or teacher-librarian* and,
- A computer program may be adapted by adding to the content or changing the language. The adapted program may not be distributed.

Fair Use Guidelines for Educational Multimedia

Students may incorporate portions of copyrighted materials in producing educational multimedia projects such as videos, power points, podcasts and web sites for a specific course, and may perform, display or retain the projects.

USE OF INFORMATION RESOURCES REGULATION

Educators may perform or display their own multimedia projects to students in support of curriculum-based instructional activities. These projects may be used:

- In face-to-face instruction;
- In demonstrations and presentations, including conferences;
- In assignments to students;
- For remote instruction if distribution of the signal is limited;
- Over a network that cannot prevent duplication for fifteen days, after fifteen days a copy may be saved on-site only; or,
- In their personal portfolios.

Educators may use copyrighted materials in a multimedia project for two years, after that permission must be requested and received.

The following limitations restrict the portion of any given work that may be used pursuant of fair use in an educational multimedia project:

- Motion media: ten percent or three minutes, whichever is less;
- Text materials: ten percent or 1,000 words, whichever is less;
- Poetry: an entire poem of fewer than 250 words, but no more than three poems from one author or five poems from an anthology. For poems of greater than 250 words, excerpts of up to 250 words may be used, but no more than three excerpts from one poet or five excerpts from an anthology;
- Music, lyrics and music video: Up to ten percent, but no more than thirty seconds. No alterations that change the basic melody or fundamental character of the work;
- Illustrations, cartoons and photographs: No more than five images by an artist, and no more than ten percent or fifteen images whichever is less from a collective work;
- Numerical data sets: Up to ten percent or 2,500 field or cell entries, whichever is less;

Fair use does not include posting a student or teacher's work on the Internet if it includes portions of copyrighted materials. Permission to copy shall be obtained from the original copyright holder(s) before such projects are placed online. The opening screen of such presentations shall include notice that permission was granted and materials are restricted from further use.

As Employees of the Livingston School District it is your professional responsibility to be familiar with Board Policy 2312 and act within the parameters set forth in the procedures outlined in Board Policy 2312P. Failure to comply with Board policy 2312 and procedures outlined in Board Policy 2312P may result in disciplinary action.

CONFERENCES

Planned conferences between teachers and parents are essential to the district's efforts to further understanding and close cooperation between the home and school. Parent-teacher conferences are scheduled each fall and spring. The student may be included if the teacher or parent so desires.

Conferences should be treated as an opportunity for constructive, mutual exchange of information and ideas for the welfare and continued academic growth of the student.

Teachers or parents may arrange for conferences or meetings outside regularly scheduled conference dates, to meet more immediate student needs. Teachers should be prepared to provide after-school or pre-school time to meet with students as necessary.

CRIMINAL RECORDS CHECKS/FINGERPRINTING (Policy 5430)

Any finalist recommended for hire to a paid or volunteer position with the district, involving regular unsupervised access to students in schools, as determined by the Superintendent, shall submit to a name-based and fingerprint criminal background investigation conducted by the appropriate law enforcement agency prior to consideration of the recommendation for employment or appointment by the Board. The results of the name-based check shall be presented to the Board concurrent with the recommendation for employment or appointment. Any subsequent offer of employment or appointment shall be contingent upon results of the fingerprint criminal background check, which must be acceptable to the Board, in its sole discretion.

The following applicants for employment, as a condition for employment, shall be required, as a condition of any offer of employment, to authorize, in writing, a name-based and fingerprint criminal background investigation to determine if he or she has been convicted of certain criminal or drug offenses:

In a study or discussion of controversial issues or materials, the Board directs the teaching staff to take into account the following criteria:

1. Material is age appropriate

GIFTS AND SOLICITATIONS

Staff members are to avoid accepting anything of value offered by another for the purpose of influencing his/her professional judgment. No organization may solicit funds from staff members within the schools, nor may anyone distribute flyers or other materials related to fund drives through the school without building Administrator approval. (Refer to Policy 4331, 4331P)

The solicitation of staff by sales people, other staff, or agents during on-duty hours is prohibited without building Administrator approval. Any solicitation should be reported at once to the building Administrators. (Refer to Policy 5223)

GRIEVANCES

Refer to provisions of current certified and/or classified negotiated agreements.

GUEST SPEAKERS/CONTROVERSIAL SPEAKERS

Guest speakers may be used by teachers from time to time, when such use is consistent with educational goals and with a demonstrable relation to the curricular or co-curricular activity in which the participating students are involved. Teachers are expected to inform the [building principal] of the date, time, and nature of the presentation whenever such use is planned.

Prior [building principal] approval is required whenever the guest speaker and/or presentation may be reasonably considered controversial. (Refer to Policy 4320)

HARASSMENT/BULLYING/INTIMIDATION

Harassment of staff members is strictly prohibited on district property, including non-district property while a staff member is at any district-sponsored, district-approved, or district-related activity or function, such as field trips or athletic events, in which students are under the control of the district or where the staff member is engaged in district business.

Harassment includes, but is not limited to, harassment on the basis of race, color, religion, national origin, age, martial status, disability, and sexual harassment.

Sexual harassment includes, but is not limited to, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

1. The staff member's submission to the conduct or communication is made a term or condition of employment;
2. The staff member's submission to, or rejection of, the conduct or communication is the basis for decisions affecting employment and assignment;
3. The conduct or communication has the purpose or effect of substantially interfering with an individual's work performance;
4. The conduct or communication has the effect of creating an intimidating, hostile, or offensive working environment.

Other types of harassment may include, but not be limited to, jokes, stories, pictures, or objects that are offensive, tend to alarm, annoy, abuse, or demean certain protected individuals and groups.

A staff member whose behavior is found to be in violation of Board policy may be subject to discipline up to and including dismissal. A student whose behavior is found to be in violation of Board policy may be subject to discipline up to and including expulsion.

Any staff member who is subject to, or knows of, such harassment is directed to notify the building principal or superintendent immediately. If the complaint is not satisfactorily settled, the staff member may file a complaint directly with the Montana Human Rights Commission or with the U.S. Department of Labor, Equal Employment Opportunity Commission. Such complaints may also be filed with the appropriate enforcement agency, in lieu of the district's complaint process, at any time, as provided by law.

There will be no retaliation by the district against any person who, in good faith, reports harassment. (Refer to Policies 5010, 5012, 5015, 5012P)

INSURANCE BENEFITS FOR EMPLOYEES

Reference current bargaining agreements for both classified and certified.

KEYS

Keys may be issued to staff by the building principal. In order to protect property, students, and staff and to ensure the building is adequately secured when no authorized personnel are present, all staff are expected to follow the following key-control procedures:

1. The duplication of keys is prohibited;
2. Keys are not to be left unattended. Avoid having keys on desks, tables, in mailboxes, unattended coat pockets, etc.;
3. Keys may not be loaned [to students or to individuals not employed by the district]. Under no circumstance should staff provide keys to students to "run errands", "unlock/lock" doors, etc.;
4. Lost or stolen keys must be reported to the building principal within 24 hours of discovery of the loss or theft so that measures may be taken to protect district property. Three days will be allowed for the finding or recovery of keys before any charges are assessed;
5. Upon completion of a lost-or-stolen-key report form, presentation of the broken or damaged key(s), and submission of assessed fees, replacement keys will be issued within 72 hours;
6. Charges for lost or stolen keys will be made to the staff member to whom the key(s) have been issued.
7. All keys are to be checked in at the end of the school year. Staff with summer duties necessitating building access may make arrangements with the building principal to keep their keys as appropriate.
8. If building principal or maintenance supervisor deem issuance of keys compromises the security of the building, keys may be issued through check out procedure only.

LESSON PLANS

The quality of the instructional program reflects the effort invested by teachers in developing lesson plans consistent with district curriculum and appropriate to the individual needs of students.

Teachers are expected to prepare lesson plans on a weekly basis. Copies of lesson plans may be required to be submitted to the building principal no later than the end of the school day Friday, for the upcoming week. Lesson plans are to be kept by teachers in a place known to and accessible to the building principal. Teachers may be required to provide copies of lesson plans to the office at reasonable times and intervals, as determined by the building principal.

Lesson plans should be of sufficient length and substance to allow a substitute teacher to carry on the course of study and to provide a means by which the building principal may monitor instruction to assure that the educational program in a particular class or activity is consistent with the district-approved course of study.

An up-to-date seating chart, class schedules, and information identifying any classroom student aides or other special student needs should be included in all lesson plan books.

General plans which cover the length of the course of study should also be prepared and readily available for building principal and/or student and parent review.

MATERIALS DISTRIBUTION

Requests of staff by individuals or groups to distribute pamphlets, booklets, flyers, brochures, and other similar materials to students for classroom use or to take home are to be referred to the building principal for prior approval. The materials and proposed method of distribution will be reviewed and a decision made based on the educational concerns and interests of the district.

PARTICIPATION IN POLITICAL ACTIVITIES

Staff members may exercise their right to participate fully in affairs of public interest on a local, county, state, and national level, on the same basis as any citizen in public or private employment and within the law.

Staff members may, within the limitations imposed by state and federal laws and regulations, choose any side of a particular issue and support their viewpoints as they desire, by vote, discussion, or persuading others. Such discussion and persuasion, however, may not be carried on during the performance of district duties.

On all controversial issues, staff members are expected to make clear that the viewpoints they represent are personal and are not to be interpreted as the district's official viewpoint. (Refer to Policy 5224)

PETTY CASH

In order to expedite the purchase of minor school supplies, postage, freight, and other emergency items, a petty cash account has been established. Staff members may purchase items costing less than \$50 with prior approval from the building Administrator. (Refer to Policy 7329)

PERSONNEL RECORDS

An official personnel file is established for each person employed by the district. A staff member's personnel file may contain such information as applications for employment, references, records relative to compensation, payroll deductions, evaluations, complaints, and written disciplinary actions.

All records containing medical-condition information, such as workers' compensation reports and release/permission to return to work forms, will be kept confidential, in a separate file from personnel records.

All personnel records are considered confidential and not open to public inspection. Access to personnel files is limited to use and inspection only by the following or as otherwise required by law:

1. The individual employee. An employee or designee may arrange with the [personnel] office to inspect the contents of his/her personnel file on any day the [personnel] office is open for business;
2. Others designated in writing by the employee;
3. The comptroller or auditor, when such inspection is pertinent to carrying out their respective duties, or as otherwise specifically authorized by the Board. Information so obtained will be kept confidential. No files will be removed from their central location for personal inspection;
4. A Board member, when specifically authorized by the Board. Information will be kept confidential. No files will be removed from their central location for personal inspection;
5. The superintendent and members of the central administrative staff;
6. District administrators and supervisors who currently or prospectively supervise the employee;
7. [Employees of the personnel office];
8. Attorneys for the district or the district's designated representative on matters of district business.

The superintendent may permit persons other than those specified above, to use and to inspect employee records when, in his/her opinion, the person requesting access has a legitimate official purpose. The superintendent will determine, in each case, the appropriateness and extent of such access.

In accordance with federal law, the district is required to release information regarding the professional qualifications and degrees of teachers and the qualifications of

aides/paraprofessionals to parents upon request, for any teacher or aide/paraprofessional who is employed by a school receiving Title I funds, and who provides instruction to their child.

Release of personnel records to parties other than those authorized to inspect them will be only upon receipt of a court order.
(Refer to Policy 5231 & 5231P)

PREP AND LUNCH PERIODS

Prep periods are for the purpose of preparing for and improving instruction. Teachers/staff are required to check out with the building principal before leaving campus during scheduled prep periods.

PROGRESS REPORTS

Teachers are expected to report their students' progress to the students and their parents. Progress reports are posted on Infinite Campus or issued at the midway point of the first, second, third, and fourth quarter grading periods, indicating academic and citizenship progress to date.

Such reports may be issued at other times during the course of a grading period as deemed appropriate by teachers. Grades should be updated on a weekly basis.

No grade of "D" or "F" should be issued without a written progress report having been sent home, notifying the student and parents of academic deficiencies.

PURCHASE ORDERS

No obligation may be incurred by any staff member, unless that expenditure has been authorized in the budget or as may otherwise be permitted by Board action and/or Board policy.

No purchase [including purchases from student body funds] will be authorized unless covered by an approved purchase order including purchases from ASB funds. Forms are available in the office. (refer to Policy 7320)

RELEASE OF GENERAL STAFF INFORMATION

A staff member's address and personal phone number will not be released by the district. Such information may be disclosed if a staff member authorizes the district to do so.

The district may also disclose information about a former employee's job performance to a prospective employer, under the following conditions:

1. Disclosure of information is upon the request of the prospective employer; or
2. Disclosure of information is upon the request of the former staff member;
3. The information is related to job performance;
4. The disclosure is presumed to be in good faith.

The district will not disclose information that is knowingly false, deliberately misleading, rendered with malicious purpose, or is in violation of the staff member's civil rights.

RESEARCH/COPYRIGHTS AND PATENTS

Staff members engaged in a research project during the work day or who use district resources or students, either for study toward advanced work or for use in classroom instruction, may do so only with the prior approval of the [building principal].

Privacy rights of students or other individuals involved in such research projects must be maintained.

Publications, instructional materials, articles, models, and other devices prepared by staff members for district use with district time, money, and facilities, as part of the employee's job responsibilities, remain the property of the district.

In the event that a staff member produces items described above partly on his/her own time and partly on district time, the district reserves the right to claim full ownership. The employee may petition the district for assignment of copyright or patent rights. Employees may not attempt to copyright or patent such items without the knowledge and consent of the district.

RESIGNATION OF STAFF

Certified and classified personnel will generally be expected to fulfill the terms of their contract unless there are clearly compelling, mitigating circumstances which prevent the certified or exempt individual from doing so.

The Board has authorized the Superintendent to accept on its behalf resignations from any school district employee. The Superintendent shall provide written acceptance of the resignation, including the date of acceptance, to the employee, setting forth the effective date of the resignation.

Once the Superintendent has accepted the resignation, it may not be withdrawn by the employee. The resignation and its acceptance should be reported as information to the Board at the next regular or special meeting. (refer to Policy 5251)

RETIREMENT

To assist the district in its planning efforts, certified staff members considering retirement are asked to notify the district no later than January 1st as per the current bargaining agreement. Employees intending to retire who are not contractually obligated to complete the school year should notify the superintendent as early as possible and no less than sixty (60) days before their retirement date. The relevant and most current negotiated agreements for all categories of employees shall specify severance stipends and other retirement conditions and benefits.

SPECIAL INTEREST MATERIALS

Supplementary materials from non-school sources require building principal approval prior to their use in school.

Generally, materials that are of obvious educational quality, supplement and enrich instructional and reference materials for definite school courses, and are timely may be considered for approval.

STAFF CONDUCT

Employees are expected to maintain high standards of honesty, integrity and impartiality in the conduct of district business.

In accordance with state law, an employee should not dispense or utilize any information gained from employment with the district, accept gifts or benefits, or participate in business enterprises or employment which create a conflict of interest with the faithful and impartial discharge of the employee's district duties. A district employee may, prior to acting in a manner which may impinge on any fiduciary duty, disclose the nature of the private interest which creates a conflict. Care should be taken to avoid using, or avoid the appearance of using, official positions and confidential information for personal advantage or gain.

Further, employees should hold confidential all information deemed to be not for public consumption as determined by state law and Board policy. Employees shall also respect the confidentiality of people served in the course of the employee's duties and use information gained in a responsible manner. Discretion should be employed even within the school system's own network of communication.

(Refer to Policy 5223)

STAFF DRESS AND GROOMING

All staff are expected to be neat, clean, and to wear appropriate dress for work that is in good taste and suitable for the job at hand.

Teaching as a professional demands setting a good example for students in every possible way. As adults and professionals, teachers are expected to be guided in their grooming habits by what is most generally acceptable in the business and professional world.

STAFF HEALTH AND SAFETY

In order to assure the safety of staff and students, information and/or training, as necessary, is provided to assist all staff to recognize and to respond appropriately to the presence of hazardous materials in the workplace, including proper handling, labeling, storage, and disposal of such materials.

All staff members are expected to conduct their work in compliance with first aid and infection control procedures established by the district and the following safety rules of the district:

1. All injuries shall be reported immediately to the person in charge or other responsible representative of the district;
2. It is the duty of all employees to make full use of safeguards provided for their protection. It shall be the employee's responsibility to abide by and perform the following requirements:
 - a. An employee shall not operate a machine unless guard or method of guarding is in good condition, working order, in place and operative;
 - b. An employee shall stop the machine or moving parts and properly tag-out or lock-out the starting control before oiling, adjusting, or repairing, except when such machine is provided with means of oiling or adjusting that will prevent possibility of hazardous contact with moving parts;
 - c. An employee shall not remove guards or render methods of guarding inoperative, except for the purpose of adjustment, oiling, repair, or setting up a new job;
 - d. Employees shall report to their supervisor any guard or method of guarding that is not properly adjusted or not accomplishing its intended function;
 - e. Employees shall not use their hands or any portion of their bodies to reach between moving parts or to remove jams, hang-ups, etc. (use hook, stick, tong, jig, or other accessory);
 - f. Employees shall not work under objects being supported that could accidentally fall (such as loads supported by jacks, the raised body of a dump truck, etc.), until such objects are properly blocked or shored;
 - g. Employees shall not use defective tools or equipment. No tool or piece of equipment should be used for any purpose for which it is not suited, and none should be abused by straining beyond its safe working load;
3. Employees shall not remove, deface, or destroy any warning, danger sign, or barricade or interfere with any other form of accident prevention device or practice provided on any machine, tool, or piece of equipment which they are using or which is being used by any other worker;
4. Employees must not work underneath or over others, thereby exposing them to a hazard without first notifying the other employee(s) or seeing that proper safeguards or precautions have been taken;
5. Employees shall not work in unprotected, exposed, or hazardous areas under floor openings;
6. Long or unwieldy articles shall not be carried or moved, unless adequate means of guarding or guiding are provided to prevent injury;
7. Hazardous conditions or practices observed at any time shall be reported as soon as practicable to the person in charge or some other responsible representative of the employer;
8. Employees observed working in a manner which might cause immediate injury to either themselves or other workers shall be warned of the danger;
9. Before leaving a job, workers shall correct, or arrange to give warning of, any condition which might result in injury to others unfamiliar with existing conditions;

10. Good housekeeping methods shall be observed in all operations. Materials shall be so handled and stored as to minimize falling, tripping, or collision hazards;
11. Working and storage areas and passageways shall be kept free of unnecessary obstructions. No loose object shall be placed in any area where its presence will necessitate employees crowding between such objects as moving machinery, steam pipes, or other objects with which contact would be dangerous;
12. Any materials which might cause an employee to slip or fall shall be removed from floors and other treading surfaces immediately, or suitable means or methods shall be used to control the hazardous condition;
13. All sharp, pointed, or otherwise hazardous projections in work areas shall be removed or rendered harmless.

STAFF/PARENT RELATIONS

The district encourages parents to be involved in their student's school experience. It is required by Title I compliance to have a parent/ teacher compact. This will help identify roles and responsibilities of all parties. Disclosure statements, grade/classroom orientation statements that describe the curriculum coverage, grading protocols, assignment expectations, and general classroom routines are best practice and should be done at the beginning of the year or course.

Teachers are advised that unless otherwise ordered by the courts, an order of sole custody on the part of one parent does not deprive the other parent of certain rights. It is the responsibility of the parent with sole custody to provide to the district any court order that curtails the rights of the non-custodial parent.

A non-custodial parent may receive and inspect the school records pertaining to their student and to consult with teachers concerning their student's welfare and education.

Non-custodial parents will not be granted visitation or telephone access to their student during the school day. Students may not be released to the non-custodial parent without the written permission of the parent having sole custody.

In the case of joint custody, it is the responsibility of the parents to provide the district, in writing, any special requests or clarifications in areas concerning the student and the district's relationship and responsibilities. Such information will be maintained on file in the office and provided to staff as appropriate.

Staff members with questions regarding custodial and/or non-custodial parent rights with respect to particular students should contact the office.

STAFF/STUDENT RELATIONS

Public school employees are held to a high standard of behavior. The Montana Office of Public Instruction *Professional Educators of Montana Code of Ethics* requires District staff to maintain an appropriate professional relationship with each student, both in and outside the classroom and

exemplifies a professional role in the community. The District encourages all staff to read and become familiar with the Code of Ethics.

Definitions

“Staff” refers to all Livingston School District employees, contracted service personnel, and any volunteers working on school property, on field trips, at extracurricular and co-curricular activities or events and/or other school district sponsored activities.

“Student” refers to all Livingston School District individuals in grades K-12, including a one year window post-graduation from Park High School.

Anti-Fraternization: (Refer to Policy 5460) All staff must be aware that students of all ages and intellect are susceptible to influence by both staff and fellow peers. Staff must be cognizant of their appropriate roles and professional duties in the development of students. Similarly, staff must be cognizant of the imbalance of power that exists in relationships between staff and student, which can live on long after the student has graduated from the Livingston School District. This imbalance of power places students in a vulnerable position that must be recognized and respected by staff. It is the responsibility of staff not to take advantage of or otherwise exploit this imbalance of power to further any non-educational, personal, or inappropriate objective. Accordingly, staff is prohibited from engaging in any romantic, sexual, or physical relationships with students.

Many personal relationships are entirely appropriate and develop through family or neighborhood interactions with respect and adherence to the appropriate standards of professional conduct. To the degree that such relationships develop or exist, it is the staff’s responsibility to ensure that such relationships continue along and within appropriate boundaries. Failure to adhere to these requirements may result in severe consequences, up to and including termination.

Staff shall not conduct social activities on a one-on-one basis outside of school with students or single out students from the general student population for special treatment (e.g., gifts, dinners, and rides) without prior consent of the student’s parent and advance notice to the principal.

Electronic Resources and Social Networking: Digital dissemination of information and correspondence presents potential for a vastly increased audience; therefore staff is reminded that the same relationship, exchange, interaction, information, or behavior that would be unacceptable in a non-technological medium, is unacceptable when done through the use of technology. In fact, extra caution must be exercised by staff to ensure they don’t cross the line of acceptability. Disciplinary action for inappropriate social technology media use would be similar to that of inappropriate non-technological behavior.

The District strongly encourages the use of professional social network sites rather than personal sites for posting of school related information. The District strongly discourages sharing texts, personal emails, soliciting students as friends on social networking sites and sharing access

information to personal websites outside of a professional advisory capacity. (For complete text, see Policy 5460) Employee Use of Cell Phones: The District recognizes that the use of cell phones may be appropriate to help ensure the safety and security of District property, students, staff, and others while on District property or while engaged in District-sponsored activities. Use of cellular phones and other electronic communication devices in violation of Board policies, administrative regulations, and/or state and federal laws will result in discipline up to and including termination of employment. (For complete text see Policy 5630)

If cell phone or e-mail communications occurs with students, teachers, staff needs to keep the Activities Director and building principal informed as to the nature of the communications, for example, on field trips or activities.

Any question by staff as to the appropriateness of an activity, relationship, or interactions with a student may be directed to the principal or district administration. All staff that suspect an inappropriate relationship exists between a staff member and student are required to immediately notify, orally or in writing, the principal or district administration.

SUICIDE AWARENESS AND PREVENTION

The Administration shall develop and implement a youth suicide prevention program meeting minimum requirements set forth in 10.55.719, ARM.

The District will provide professional development on youth suicide awareness and prevention to each employee of the district who work directly with any students enrolled in the school district. The training materials will be approved by the Office of Public Instruction (OPI).

The District will provide at least two (2) hours of youth suicide and prevention training beginning the 2017-18 school year. The District will provide, at a minimum, two (2) hours of youth suicide awareness and prevention training every five (5) years thereafter. All new employees who work directly with any student enrolled in the school district will be provided training the first year of employment.

Youth suicide and prevention training may include:

- A. In-person attendance at a live training;
- B. Videoconference;
- C. An individual program of study of designated materials;
- D. Self-review modules available online; and
- E. Any other method chosen by the local school board that is consistent with professional development standards.

No cause of action may be brought for any loss or damage caused by any act or admission resulting from the implementation of the provisions of this policy or resulting from any training, or lack of training, related to this policy. Nothing in this policy shall be construed to impose a specific duty of care. (Reference Policy 2150)

SUPERVISION OF STUDENTS

Staff members are responsible for the supervision of all students while in school or engaged in school-sponsored activities.

All teachers are expected to be in their classrooms prior to the arrival of students.

Under no circumstances are classrooms or other areas where students are under the supervision of assigned staff to be left unattended while students are present. Teachers who may need to temporarily leave the classroom or their assigned duties in an emergency situation while students are present are expected to contact the office to arrange for temporary coverage.

No other staff member may leave their assigned group unsupervised except as appropriate supervision arrangements have been made to take care of an emergency.

During school hours or while engaged in school-sponsored activities, students may be released only into the custody of parents or other authorized persons.

TEACHING ABOUT RELIGION

Religious education is the responsibility of the home and religious institutions. Public schools are obligated to maintain neutrality in all such matters.

However, as religion influences many areas of education, such as literature and history, its role in civilization may be taught when consistent with curriculum and teaching assignment. In such instances, teachers may provide information and opportunity for students to study the forms of various religions.

Teachers may not advocate, openly or covertly or by subtlety, a particular religion or religious belief.
(refer to policy 2332).

TOBACCO-FREE ENVIRONMENT

The District maintains tobacco-free buildings and grounds. Tobacco includes but is not limited to cigarettes, cigars, snuff, smoking tobacco, smokeless tobacco, nicotine and any other tobacco innovation (such as vaping).

Use of tobacco products in a public school building or on public school property is prohibited, unless the use of a tobacco product in a classroom or on other school property as part of a lecture, demonstration, or educational forum sanctioned by a school administrator or faculty member, concerning the risks associated with using tobacco products.

For this purpose, “public school building or public school property” means:

- Public land, fixtures, buildings, or other property owned or occupied by an institution for the teaching of minor children that is established and maintained under the laws of the state of Montana at public expense; and
- Includes playgrounds, school steps, parking lots, administration buildings, athletic facilities, gymnasiums, locker rooms, and school vehicles. (reference Policy 8225)

Violation of the policy by students and staff will be subject to actions outlined in District discipline policies.

USE OF PRIVATE VEHICLES FOR DISTRICT BUSINESS

The use of private vehicles for district business, including the transportation of students, is generally discouraged. Staff members should use district-owned vehicles whenever possible, scheduling activities and other transportation far enough in advance to avoid any non-emergency use of private vehicles. No staff members may use a private vehicle for district business without permission from the building Administrator.

VACANCIES/TRANSFERS

Announced vacancies for certified and classified positions are posted at least 5 [five] working days prior to closing the application period. These will be posted on the district web site, buildings, and given to association leaders.

Voluntary and involuntary transfer of staff members will follow the processes outlined in the current negotiated agreements.

(refer to Policy 5210, 5213, and applicable provisions of current negotiated agreements.)

VOLUNTEERS

Volunteers and chaperones are subject to the District's policy mandating background checks (Policy 5122). The district office will send out an updated list of volunteers and chaperones who have passed the background check monthly. Check with your school secretary for cleared list.

District employees who work with volunteers shall clearly explain duties for supervising students in school, for activities, and on field trips. An appropriate degree of training and/or supervision of each volunteer must be administered commensurate with the responsibility. While serving as chaperone for the District, the parent(s)/guardian(s) or other adult volunteers, including employees of the district, assigned to chaperone, shall not inappropriately fraternize with students, shall not use tobacco products in the presence of students, nor shall they consume any alcoholic beverages or use any illicit drug during the duration of their assignment as a chaperone, including the hours before, during, and after the day's activities for students. (For complete text see Policy 5122 & Policy 5430)

WORKMAN'S COMPENSATION BENEFITS

All employees of the District are covered by workers' compensation benefits. In the event of an industrial accident, an employee should:

1. Attend to first aid and/or medical treatment during an emergency;
2. Correct or report as needing correction a hazardous situation as soon as possible after an emergency situation is stabilized;
3. Report the injury or disabling condition, whether actual or possible, to the immediate supervisor, within forty-eight (48) hours, on the Employer's First Report of Occupational Injury or Disease; and
4. Call or visit the administrative office after medical treatment, if needed, to complete the necessary report of accident and injury on an Occupational Injury or Disease form.

The administrator will notify the immediate supervisor of the report and will include the immediate supervisor as necessary in completing the required report. An employee who is injured in an industrial accident may be eligible for workers' compensation benefits. By law, employee use of sick leave must be coordinated with receipt of workers' compensation benefits, on a case-by-case basis, in consultation with the Workers' Compensation Division, Department of Labor and Industry.

The District will not automatically and simply defer to a report of industrial accident but will investigate as it deems appropriate to determine:

- (1) whether continuing hazardous conditions exist which need to be eliminated; and
- (2) whether in fact an accident attributable to the District working environment occurred as reported.

The District may require the employee to authorize the employee's physician to release pertinent medical information to the District or to a physician of the District's choice, should an actual claim be filed against the Workers' Compensation Division, which could result in additional fees being levied against the District. (refer to Policy 5337)

STUDENT OPERATIONAL PROCEDURES

ADMINISTERING MEDICINES TO STUDENTS

Students who must take prescription and/or over-the-counter medication at school, on a temporary or regular basis, must provide a written request to administer medication, signed by the parent. All medications will be kept in locked storage in the [office] unless a student must carry medication on his/her person during the school day. Parents of students who must carry and self-administer medication must complete the Montana Authorization to Possess or Self-Administer Medication form and return it to the building office.

The school has auto-injectable epinephrine to be administered by the school nurse or other authorized personnel to any student or non-student as needed for actual or perceived anaphylaxis.

Teachers are expected to assist students in remembering when a medication is scheduled to be administered. If the student refuses to take medication, teachers are expected to notify the parent whenever possible. Attempts to contact parents must be documented as to date and time. (Refer to Policy 3416 and 3416F)

CLASS INTERRUPTIONS

The district is committed to protecting instructional time. Class interruptions of any kind will be kept to a minimum. Students are not to be permitted to interrupt a class in session without authorization from the office. Intercom use is restricted to administrative use or administrative approved use only.

COMMUNICABLE DISEASES

Protection from communicable disease is generally provided through immunization, exclusion, or other measures provided for in Montana Code Annotated and rules of the county health department. Services generally will not be provided to students excluded unless otherwise required by law.

In those cases where a communicable disease is diagnosed and confirmed and the student would not be excluded from school, the district will inform the appropriate staff member to protect against the risk of exposure. (Refer to Policy 3417)

CORPORAL PUNISHMENT

The use of corporal punishment in any form is strictly prohibited by the district. Corporal punishment is defined as the willful infliction of, or willfully causing the infliction of, physical pain. A staff member is authorized to employ physical force when, in his/her professional judgment, the physical force is necessary to prevent a student from harming himself/herself, others, or doing harm to district property.

DISASTER DRILLS

There will be at least eight (8) disaster drills a year, four (4) of which will be fire drills. All teachers will discuss fire drill procedures with their class at the beginning of each year. The drills will be held at different hours of the day or evening to avoid distinction between drills and actual disasters. Refer to building crisis or disaster drill procedures for more information. (Coordinate with Policy 8301)

FEATURE FILMS/VIDEOS

Building principal approval is required prior to showing a feature film/video to students in district classrooms. Use of films should be used to support core curriculum and augment student learning. Films/videos rated G, PG,PG-13 or R may be authorized for classroom use.

Requests are to be submitted to the building principal at least five days prior to the proposed showing. Forms are available in the office.

The following information should be included:

1. Title and brief description;
2. Purpose for the showing;
3. Match with course objectives;
4. Proposed date of showing;
5. When and how parents will be notified, or if necessary grant consent;
6. Audience rating.

The showing of all feature films/videos with a G rating requires prior parent notification from the staff member. Feature films/videos with a PG/PG-13 or R rating must have prior parental consent.

FIELD TRIPS AND SPECIAL EVENTS

Field trips and other student activities involving travel may be authorized by the building principal, when such trips or activities contribute to the achievement of desirable educational goals.

Requests should be submitted to the [building principal] well in advance of the proposed activity. All such requests will be considered, based on such factors as availability of funds, the educational value derived, the safety and welfare of the students involved, impact on the regular school program, and availability of appropriate supervision, either from within school staff or from volunteers.

Volunteers and chaperones are subject to the District's policy mandating background checks. The district office will send out an updated list of volunteers and chaperones who have passed the background check monthly. Check with your school secretary for cleared list. In some special one-time events such as judges, speakers, events, competitions, etc. may be exempt (See Policy 5122).

Teachers at all grade levels are encouraged to use homework to augment student learning. Homework should be age appropriate in complexity and length of time to complete. Scaffolding in the classroom should be done to insure the student's ability to successfully engage homework.

Homework may refer to an assignment prepared during a period of supervised study in class or outside of class or which requires individual work in the home.

Homework is expected to be designed to improve learning, to aid in the mastery of skills and to stimulate interest on the part of the student.

The information for any homework assignment should be clear and specific so that the student can complete the assignment. Homework should not require the use of reference materials not readily available in most homes, school libraries, or the public library. Homework should require the use of those materials only when the student has had instruction in such use. (refer to Policy 2430)

Media representatives are required to report to the building principal for prior approval before accessing students involved in instructional programs and activities not attended by the general public.

Information obtained by media representatives directly from students does not require parental approval prior to publication by the media. Parents who do not want their student interviewed or photographed by the media may direct their student accordingly.

Staff may release student information to the media only in accordance with applicable provisions of the education records law and Board policies governing directory information and personally identifiable information. (Refer to Policy 3600 and 3600F2)

Examples of life-sustaining emergency care may include: efforts to stop bleeding, unblocking airways, mouth-to-mouth resuscitation, and cardiopulmonary resuscitation (CPR).

All students are to comply with district policy, written building and classroom rules, pursue the prescribed course of study, submit to the lawful authority of teachers and school officials, and conduct themselves in an orderly manner at school during the school day or during school-sponsored activities.

In addition to adopted Board policies governing student conduct, administrative regulations specifying student-conduct expectations have been established. These rules apply to actions which occur on district property, at any district-sponsored activity regardless of location; or when traveling to or from school for district-sponsored activities. Disregard of these rules constitutes grounds for suspension, expulsion, or other reasonable disciplinary action.

All teachers are expected to review the student conduct rules contained in the Student/Parent Handbook with their students during the first week of the school year.

Student conduct rules unique to individual classrooms may also be developed by teachers. All such rules must be consistent with district policy and local building administrative regulations governing student conduct and discipline. Classroom rules and consequences are to be reviewed with students, posted in classrooms, and made available to parents.

Classroom rules and consequences are to be submitted to the building principal for review and approval.

No student is to be permitted to perform district business with his/her own vehicle, a staff member's vehicle, or a district-owned vehicle.
