Re: COVID 19 Preparedness  
Date: March 23<sup>rd</sup>, 2020

Families,

Please accept this communication regarding the school district's preparedness for the COVID 19 Virus. We all understand that this is a difficult time for families. Here at the Livingston School District we continue to take this global pandemic very serious. This past week the effort, cooperation and selfless mindset among the education community was heartening to witness.

The following is a partial list of accomplishments this past week that were directed at serving students of Livingston:

- Off-site learning plans were researched and planned at each school
- Safety protocols for pick up and drop off of off-site instructional packets have been established
- A Comprehensive Student Support Response has been developed by the student support team
- School by School check lists were created to help work toward K-12 consistency
- A Memorandum of Understanding was agreed upon to ensure support staff continue to have work opportunities
- Food Service and Transportation Departments have collaborated to ensure the nutrition needs of students continue to be met
- Numerous building level and department task forces began working on everything from technology, specialists, and behavioral health support
- Numerous teacher and principal attempts to reach families

In closing, these challenges can also be viewed as opportunities for all of us to come together to do our very best to meet the learning needs of the community's children. We continue to work with all of our health care professionals throughout the community from CHP, Livingston Healthcare, County Health, County Emergency Management and our own school nurses.

Please know that we will all continue to work hard and do not hesitate contacting us if you need additional support.

Educationally yours,

Dr. Donald J. Viegut  
Superintendent of Schools  
Livingston School Districts 4 & 1
