LIVINGSTON SCHOOL DISTRICT
PARK HIGH SCHOOL VACANCY
2019-2020 School Year

Title: Technology Education/Industrial Technology Instructor

Job Goals:
- To prepare tomorrow’s student leaders for global competitiveness in Design, Engineering, Vocational trades, and technology, that articulates students to post-secondary institutions and successful careers.
- To help the students of Park High School attain the skills required in the 21st century for college and career readiness.

Qualifications:
- Montana Certification with a Bachelors or Masters Degree in Technology Education/Industrial Technology, or Industrial Arts
- Demonstrated ability to relate effectively with young people as well as professional colleagues.
- Demonstrated knowledge and proficiency in the delivery of an integral program consisting of several components including Industrial trades, STEM, Project based learning and Cross-curricular instruction.
- Possess a desire to manage and advice a strong co-curricular CTSO (TSA, Skills USA)
- Have a good working knowledge of Career and Technical Education and its importance in meeting needs of all students.
- Capacity for professional growth and ability to build a quality program of study that prepares students for college and career readiness in drafting and design, engineering, various building trades, and a number of other industry related fields.
- Have the desire to work in various school classroom and laboratory settings that deal with: Engineering, Drafting, Woods, Metals, Carpentry & Construction, Energy, and Manufacturing technologies.
- Possess a strong skill set to facilitate and manage both a technology-based classroom as well as a traditional shop-based laboratory. Some of these include, but are not limited to:
  - Strong Computer use and maintenance skills.
  - Tool and equipment use, maintenance, and repair knowledge.
  - The ability to select, order, and purchase a wide variety of tools, equipment, supplies, and materials needed to facilitate a safe, enriching, and productive educational experience.
  - Manage and balance multiple budget accounts tied to the Industrial Technology Program.
